

# Scurion® - Musher package

## Runtimes

Spot	Wide Angle				
	4	3	2	1	0
4	2.8 h	4.4 h	5.4 h	5.9 h	6.0 h
3	4.4 h	9.8 h	13 h	17 h	19 h
2	5.4 h	13 h	24 h	34 h	50 h
1	5.9 h	17 h	34 h	53 h	106 h
0	6.0 h	19 h	50 h	106 h	-

Values of one 6.8 Ah-battery; white = measured; blue = calculated

.... fully programmable to your preferences :

you can mix the spot light with the wide angle ambient light as you like and use!

....and you can **personalise your light when- and wherever you want!**

Lamp developed and made in Switzerland  - Quality since 2007

## Runtimes:

- On full power – this is more than a car headlight – you get almost 3h from the 4-cell.
- On lower settings you quickly have **runtimes for several days!**
- On the lowest possible setting (that is still enough to work with in an **emergency** situation for instance) you get **more than 250 hours non stop!**

## Lamp system:

- rugged, waterproof aluminium case
- **New: measured 1300 ANSI-Lumen - spot and wide angle each 650 Lm**
- constant current regulated brightness (independent on battery voltage)
- **fully programmable to user's preferences**
- **colour temperature ~6000 Kelvin – nice, pure white!**
- microprocessor control for Li-Ion power reduction
- bar display for remaining battery capacity
- available in several colors!

## Batteries:

- 1 x 4 Li-Ion-Cell battery with 6.8 Ah / 7.2V / **49 Wh !**
- Only brand cells of the best available quality
- protection circuit for safe operation

## Head straps & sledge bracket:

- simple "outdoor" head strap for general use
- sledge bracket for simple mounting on your sledge
- modular system with different cable lengths

## Charger:

- Industry quality Mascot™ charger (made in Norway)
- max. 5h charging time (for 4-cell, double for 8-cell battery)
- fully automatic operation
- sophisticated charge algorithm for maximum battery lifetime
