

Scurion[®] OL – optimized for orienteering / running / bike

Latest LED-technology
made in Switzerland 

Fully programmable to
user's preferences:

Always the right light on hand,
no matter in what environment
you run (forest, open field, ...).

Scurion[®] -light distribution
allows you to search your
way in the distance and to
read your map easily in
parallel.

Power of a car headlight
not only for minutes but
for hours if you desire.

The lamp is **astonishingly
lightweight** because we use
the latest li-ion battery
technology.

... see more in the dark!

Lamp features:

- **New: measured 1300 ANSI-Lumen** - spot and wide angle each 650 Lm
- constant current regulated brightness (independent on battery voltage)
- microprocessor control for Li-Ion power reduction
- bar display for remaining battery capacity
- completely nonmagnetic - no magnetic switch disturbing your compass
- available in several colors!

Battery:

- LG[®] 4-cell Li-Ion battery with **6800 mAh/7.2V**
- **50 Wh capacity**
- Assembled in Germany
- protection circuit for safe operation

NEW

Head straps:

- **ergonomical "orienteering"** head strap
- modular system with different cable lengths
- also available: basic but versatile "outdoor" head strap

Charger:

- industry quality Mascot[™] charger
- max. 6h charging time, fully automatic operation
- sophisticated charge algorithm for maximum battery lifetime

Runtimes:

Spot	Wide Angle				
	4	3	2	1	0
4	2.8 h	4.4 h	5.4 h	5.9 h	6.0 h
3	4.4 h	9.8 h	13 h	17 h	19 h
2	5.4 h	13 h	24 h	34 h	50 h
1	5.9 h	17 h	34 h	53 h	106 h
0	6.0 h	19 h	50 h	106 h	-

Values of one 6.8 Ah-battery; white = measured; blue = calculated
